Hi John,

I left you a message last week to try to discuss this but I was unable to reach you.

For this week's call Steve Roy has volunteered to lead the call from EPA's end. I will not be able to be on the call this week.

I have reserved a water division conference line for the next 2 years of third Thursdays that we can use for the calls:

Conference Line/Code / Ex. 6

Conference Line/Code / Ex. 6

Can you pass this information on to the tribal staff who wish to participate in the call?

Also, if there is interest in NPDES issues for the call this week, let me know what they are and I'll provide updates to Steve.

This is the list of attendees that I have. We will make sure a new call coordinator is selected as soon as possible, and he/she will reach out to the group via email. Sorry about the confusion.
